We will be learning to measure length and investigating different 3D shapes.

In Science & Technology we will be exploring life cycles and living things. In Health & Well-being we will be practising different athletics skills and further developing our PSHE skills with weekly Jigsaw sessions. In Humanities, we will be learning about The Windrush generation and the changes of culture they experienced when coming to Britain and what they have contributed to our country. In Expressive Arts we will be preparing for our opening ceremony at the Wellbeing Olympics.

How to support your child at home: It would be very beneficial for your child's learning to practise reading with them every day. Please could you initial your child's reading record to show they have read with you. When they have read their book, your child will be able to choose a new book from their colour band. Your child will come home with an Accelerated Reader book also and they should undertake a 'quiz' online to assess their understanding and reading comprehension (please see the QR code below to take you to this website). Your child can additionally read e-books on the MyOn website. Can you also ensure that your child is 'doodling' at home on DoodleMaths please. Finally, can you please encourage independence with logging on to the above so that they can access this tool more efficiently.

Things we need this term.....

Please ensure all items of clothing and water bottles are clearly labelled with your child's name.

Children may bring a piece of fruit to school for their break time snack. Please could this be put separately in their green bag to then be put into their tray.

During warmer weather, please ensure your child comes to school wearing sun cream and brings a sun hat.
