## All Wales School Liaison Core Programme 2023/2024

At various times during this academic year, PC Alex, our Community Police Officer, will be attending school to educate our children about some of the challenges that affect our society today through the 'All Wales School Liaison Core Programme / SchoolBeat'. The intention of the Programme is to safeguard all children and young people living in Wales by providing them with current up to date information about the dangers associated with such issues as substance use and misuse, domestic abuse, bullying, anti-social behaviour, internet safety, mobile phone usage and community cohesion.

The SCPOs are trained to deliver lessons on the themes of substance misuse, personal safety, safeguarding and behaviour and community to a best practice educational standard that is welcomed by schools. In addition to their professional training as Police Officers they support schools in many ways through supportive policing; dealing with incidents using the School Crime Beat policy and offering restorative resolutions including restorative conferencing when required.

Children and young people are often innocent of these issues or the potential for breaking the law. So it is important that children are provided with accurate up to date information by specialists to ensure they are able to make correctly informed decisions.

If you have any questions regarding this Programme please speak to your child's class teacher or find out more via <https://schoolbeat.cymru>.

Please continue to check our website to access up-to-date information /  
copies of newsletters / documents and parent & carer support links.
